CARY HIGH SCHOOL

FOREWORD

The Cary High School presents to the public this its thirty-first annual catalogue in the belief that the high standard of excellence reached in the past will be fully maintained during the session of 1927-1928. So far the school has maintained its prestige as a boarding school, large numbers still coming from outside the local district and many from other counties and states. The school is unusually well equipped for caring for nonresident pupils. With two large brick dormitories, a common boarding hall for both teachers and pupils, with an ample teaching force and adequate physical equipment, the school is abundantly able to care for a large boarding patronage.

A boarding school affords numerous advantages over a school purely local. The boarding students generally are the picked representatives of their communities; the dormitory life and the mingling of pupils and teachers in the dining hall afford a training even more valuable than that obtained from textbooks, while the organized life of the students in the literary societies, athletic clubs, music clubs, science clubs, etc., is of inestimable value. Then, too, pupils freed from home duties and home distractions have better opportunities for study; and when they have finished the high school, the transition to college life is less abrupt. Many boys and girls need the discipline of dormitory life, to say nothing of correct table manners and social etiquette.

ENTRANCE REQUIREMENTS

County seventh grade graduates are admitted to the high school without examinations. All others must bring certificate from former teachers showing work that has been done.

COURSES OF STUDY

Instruction in the High School is offered in the following subjects: English, Mathematics, History, Latin, Science, French, Agriculture, Home Economics, Expression, Piano, Violin, Voice, Teacher-training, Typewriting and Stenography, Physical Education.

To receive a diploma of graduation a pupil must have completed sixteen units of work as outlined below:

FIRST YEAR

English
 Arithmetic (First Semester)
 Algebra (Second Semester)
 Civics
 Elect one
 General Science
 Agriculture
 Home Economics
 Latin

SECOND YEAR

English
 Algebra
 Biology
 Elect one
 World History
 Agriculture
 Home Economics
 Latin

THIRD YEAR

English
 Elect two
 Plane Geometry
 Chemistry
 History
 Elect one
 Latin
 French
 Agriculture

FOURTH YEAR

English
 American History
 and
 American Government
 Physics
 Elect one
 Latin
 French
 Agriculture

In the above all subjects are given five times a week. All sciences have three class periods and two laboratory periods, while agriculture and home economics classes have five laboratory periods per week. All class periods are 45 minutes and all laboratory periods are 90 minutes each. A unit's credit is allowed for a year's work in each subject listed above except that a year in agriculture counts for a unit and a half. A half unit is allowed for a year in music, expression, typewriting, stenography, or physical education.

Cicero and Virgil are offered to those who wish them or need them for college entrance.

Although plane geometry is elective, it must be taken by pupils who expect to enter college. Of the six units of foreign language offered, at least four are needed for college entrance.

OUTLINE COURSE OF STUDY

FIRST YEAR

Spelling—Essentials in Spelling for High Schools (Williams, Griffin and Chase), through page 36.

English Texts—Sentence and Theme (Ward).

English Classics for Study—Literature and Life, Book I (Greenlaw and others).

English Classics for Reading—(10 credits required): *The Lay of the Last Minstrel*, 1; *The Talisman*, 2 (Scott); *Lays of Ancient Rome*, 2 (Macaulay); *Rebecca of Sunnybrook Farm*, 1 (Wiggin); *The Call of the Wild*, 2 (London); *Robinson Crusoe*, 2 (DeFoe); *Uncle Remus Stories*, 1 (Harris); *Little Men or Little Women*, 2 (Alcott); *The Story of the Other Wise Man*, 2 (Van Dyke); *Kidnapped*, 2 (Stevenson); *The Old Curiosity Shop*, 3 (Dickens).

Mathematics—New High School Arithmetic (Wells and Hart.) *First Semester. Complete Algebra* (Slaught and Lennes), through Chapter V. *Second Semester.*

Science—General Science (Caldwell and Eikenberry).

Civics—Text-book in Citizenship (Hughes).

Agriculture—Productive Farm Crops (Montgomery); *Soils and Fertilizers* (Lyon).

Home Economics—School and Home Cooking (Greer); *Textiles and Clothing* (McGowan and Waite).

SECOND YEAR

Spelling—Essentials in Spelling for High Schools (Williams, Griffin and Chase), completed.

English Texts—Practical English (Lewis and Hsieh).

English Classics for Study—Literature and Life, Book II (Greenlaw & Stratton).

English Classics for Reading—(12 credits required): *The Lady of the Lake*, 2 (Scott); *Herve Reil*, 1 (Browning); *Franklin's Autobiography*, 2; *The Last of the Mohicans*, 2 (Cooper); *Tom Brown's School Days*, 3 (Hughes); *Iliad of*

AGRICULTURAL DEPARTMENT

Homer, 3 (Pope); *The Cloister and the Hearth*, 2 (Reade); *Tom Sawyer* or *Huckleberry Finn*, 2 (Mark Twain); *The Man Without a Country*, 1 (Hale); *The DeCoverley Papers*, 2 (Addison and Steele); *The Purloined Letter*, 1 (Poe); *Old Testament Narratives*, 2 (Rhodes); *The Virginian*, 2 (Wister); *Wild Animals I Have Known*, 2 (Seton-Thompson); One of Shakespeare's Plays not previously read, 2.

Mathematics—*Complete Algebra* (Slaught and Lennes) through chapter XXI.

History—*World History* (Webster).

Science—*Biology for High Schools* (Smallwood and others).

Agriculture—*A Study of Farm Animals* (Plumb); *Dairy Farming* (Eckles and Warren).

Home Economics—*Dietetics for High School* (Willard and Gillett); *Textiles and Clothing* (McGowan and Waite).

THIRD YEAR

Spelling—*High School Word Book* (Sandwick and Bacon), Part I.

English Texts—*Written and Spoken English* (Clippinger).

English Classics for Study—*Literature and Life*, Book III (Greenlaw & Miles).

English Classics for Reading—(15 credits required): *The Marble Faun*, 3 (Hawthorne); *A Tale of Two Cities*, 3 (Dickens); *The Sketch Book*, 3 (Irving); *Washington's Farewell Address*, 2; *Æneid*, 2 (Harrison); *Captains Courageous*, 2 (Kipling); *Sohrab and Rustum*, 2 (Arnold); *The Oregon Trial*, 2 (Parkman); *The Four Million* or *The Voice of the City*, 2 (O. Henry); *Red Rock* or *In Old Virginia*, 2 (Page); *The Rise of Silas Lapham*, 2 (Howells); *Poems and Tales*, 3 (Poe); one Play of Shakespeare not previously read, 2.

Mathematics—*Plane Geometry* (Wentworth-Smith).

Latin—*First Year Latin* (Collar and Daniell) through Chapter XLIX, or *Cicero's Orations* (Gunnison and Harley), *Four Orations against Catiline*; *The Manilian Law*; *The Citizenship of Archias*.

TYPEWRITING DEPARTMENT

Science—Chemistry of Common Things (Brownlee and others).

French—Chardenal's Complete French Course, Phonetic Edition, (Brooks); *La Belle France* (Monvert).

Agriculture—Horticulture (Davis); *Farm Mechanics*.

FOURTH YEAR

Spelling—High School Spelling Book (Sandwick and Bacon).
Part II.

English Texts—Century Handbook of Writing (Crever & Jones).

English Classics for Study—Literature and Life, Book IV (Greenlaw and others).

English Classics for Reading—(20 credits required): *Pilgrim's Progress*, 2 (Bunyan); *Vanity Fair* or *Henry Esmond*, 3 (Thackeray); *Sesame and Lilies*, 3 (Ruskin); *The Ancient Mariner*, 2 (Coleridge); *Bunker Hill Oration*, 2 (Webster); *Education and Citizenship*, 2 (Graham); *Lorna Doone*, 2 (Blackmore); *Heart of the West*, 2 (O. Henry); *The Vicar of Wakefield*, 3 (Goldsmith); one Play of Shakespeare not previously read, 2. Selections from Browning, Shelley, Keats, and Whitman, 1 each. Selections from modern drama, poetry, and essays, 1 each. Term essay, 3.

N. B.—Credit will be given for all reading over and above the minimum in each class; also for approved work in debate, declamation, recitation, C. H. S. Echoes, and the Senior annual.

Latin—First Year Latin (Collar & Daniell) *Completed*; *Caesar, Books I-IV* (D'Ooge & Eastman), or *Virgil* (Bennett), Six Books.

History—History of U. S. (Beard & Beard).

Civics—American Government (Magruder).

Science—Practical Physics (Millikan and Gale).

French—Chardenal's Complete French Course, Phonetic Edition, (Brooks); *Fifteen French Plays* (Francois); *Le Voyage de M. Perrichon* (Labiche & Martin); *Eight French Stories* (Manley).

MUSIC DEPARTMENT

Agriculture—Farm Management (Warren); *Farm Engineering*. Farm shop work is given throughout the four years to all students taking agriculture. *The Farmer's Shop Book* (Roehl) is used as the basal text.

N. B.—The course of study for the Elementary School is not outlined here, since it is issued by the State Department of Education and can be had in bulletin form.

PHYSICAL EDUCATION CLASS

All dues are payable monthly in advance. For absence on account of sickness or other providential cause, deduction is made in tuition and board for a full week of continuous absence. A school month is four weeks or twenty-eight days.

Tuition in the High School Department is free to all pupils living in Wake County, except in special charter districts, for the first six months. For the remainder of the term there will be a charge for tuition of \$5.00 per month in the high school and \$3.00 in the elementary school. This charge is made by order of the County Board of Education and applies to all High Schools in the county. Students in the Teacher-training Department, whether inside or outside the county, are not subject to tuition.

Each pupil in the dormitory brings the following: Two white counterpanes, four pillow cases, two blankets or quilts, covers for dresser, washstand and table, curtains for window (if desired), towels, comb, brush, soap. Boys will bring pillows also.

Those desiring rooms reserved in the dormitories should notify the superintendent as early as possible. Rooms will not be held longer than September 2, except by request.

All boarding pupils must room in the dormitories unless other arrangements are made satisfactory to the committee.

Boarding teachers room in the dormitories and pay the same rates as pupils.

THE BOARDING DEPARTMENT

The school has ample boarding facilities for all the boarding pupils and teachers. The dining hall is in the basement of the main building and is capable of seating about two hundred people. Here the pupils are seated in groups of eight to a table with a hostess in charge, usually a senior. From time to time the teachers of domestic science give talks and demonstrations on table manners. The management of the school believes these things to be an important part of an education.

SCIENCE CLASS

SPECIAL DEPARTMENTS

TEACHER-TRAINING

This department in our school has fully met the expectations of the State Department of Education at Raleigh, which established it five years ago, and will be continued next year. The graduates of this department have been very successful in securing good positions to teach. Wake County has provided a very elaborate equipment for the department in our Vocational Building, and the State requires an outstanding teacher for the position.

By taking this course, a student gets the equivalent of a year of college work toward securing a certificate to teach. A graduate of an accredited high school upon completion of the course, is granted an elementary certificate Class A by the State Department of Education. A graduate of a non-standard high school is granted an elementary B certificate. The course covers a period of nine school months. To graduates from this department, credit is given if they wish to continue their education in college.

AGRICULTURE AND HOME ECONOMICS

These departments occupy spacious quarters in the Vocational Building. The entire first floor and one large room in the basement, making in all nine rooms, are devoted to the work of these departments. These rooms are furnished with the most modern equipment for teaching agriculture and home economics and place the school in the forefront of high schools in the South doing this class of work.

For agriculture there are two classrooms provided with individual desks, running water, lantern, etc., with a supply room adjoining each. Between these is a room which serves as a combination library, reading room and office. In the basement a large room has been provided for the animal husbandry work and is equipped with cream separators, testers, etc. A hatchery with a capacity of over 12,000 eggs has been installed in this room and is owned by the Cary Poultry Association, an organ-

ELEMENTARY SCHOOL

ization of farmers in the community, and operated by the teachers and students of agriculture in the school. Another hatchery of 9,000 capacity will be installed for next season.

Five rooms are used by the Home Economics Department as follows: Cooking laboratory, dining room, sewing room, fitting room and library. The rooms are provided with running water, cabinets, tables, desks, bookcases, cooking stoves and cooking utensils, china, sewing machines, ironing boards, mirrors, etc.

Science being the basic subject for both agriculture and home economics, ample provision was made in the Vocational Building for teaching it by the laboratory method. In addition to the laboratory and lecture room already in use in the main building, four other rooms on the second floor of this building are devoted exclusively to science, and an elaborate equipment in desks, cabinets, physical, chemical and biological apparatus, etc., with suitable plumbing, has been provided.

The teacher training department is housed in this building on the second floor.

MUSIC

The Piano Department has long been one of the prominent features of the school. Only teachers of recognized musical attainments are employed for this work. A music studio, six practice rooms and seven pianos constitute the equipment.

A teacher has been employed who will give lessons in expression to those who desire instruction in this subject. Also arrangements have been made to have violin taught again next session.

Public school music has now become an established feature of the school for which a trained teacher is employed. There is no extra charge for it.

A gold medal is given annually by Rev. C. H. Norris to the pupil doing best work in piano for the year.

COMMERCIAL

The work of the Commercial Department last year included only typewriting. The school is planning to add stenography and probably bookkeeping next session. Six Remington type-

BOYS' GLEE CLUB

writers and suitable tables and chairs make up the equipment for this department.

The average high school pupil can find time, in addition to his regular course, to take at least one of the special subjects outlined above, and a very bright pupil might take more than one. Ability to use a typewriter has frequently been the means by which a student has paid his way through college. Every girl ought to learn to play the piano and to sing, and every boy ought to learn to play some kind of musical instrument as well as to sing.

Credit is given for work done in these special departments.

STUDENT ACTIVITIES

LITERARY SOCIETIES

The school has four literary societies, two for boys and two for girls. The girls meet Thursday afternoons and the boys on Monday nights. Each society gives a medal at Commencement for most improvement during the year. The boys' societies give jointly a medal for the best declamation and the girls' societies one for the best recitation. Mr. H. P. Smith, an alumnus of the school, gives annually a medal to the member of the boys' societies making the best speech in debate on the occasion of Commencement. Miss Lillian Killingsworth, formerly Lady Principal of the school, gives a similar medal for the best debater in the girls' societies. The school enters each year the State Triangular Debate, the speakers being chosen in a preliminary debate open to all members of the societies. All high school pupils, unless exempted by the board of trustees, are required to join one of the societies. The number of societies is determined by lot to avoid over-

SCHOLARSHIPS

Besides those mentioned above, the Superintendent for the highest grade makes a medal for the year. Any pupil in the highest grade may compete for this medal. Mr. T. Iverson gives a medal for the best work in Latin. The Junior-Senior medal is given for highest grade made during the year.

GIRLS' GLEE CLUB

SOCIETY TROPHIES

The Faculty during the fall of 1923 provided a beautiful trophy cup to be awarded annually in November or December to the Clay or Calhoun Society winning in a public debate, with the proviso that the cup shall become the permanent possession of the society winning three out of five debates. The Calhouns won the cup in 1923, the Clays in 1924, the Calhouns in 1925, and the Clays in 1926.

In 1925, the Parent-Teacher Association provided a similar cup for the girls of the Lowell and Irving Societies. In the first debate in February, 1926, the Irvings won. They also won again in 1927.

ATHLETICS

Believing strongly in the proper development of the physical powers of the boy or girl along with the mental and moral, the school has made ample provision for healthful sports of every kind. A baseball diamond, tennis courts and basketball courts for both boys and girls, and playground apparatus on the school campus and in the gymnasium are amply sufficient to keep all the pupils occupied with some sort of healthful exercise at recreation periods.

Letters are awarded by the Athletic Association to the players meeting certain requirements in football, basketball, baseball, tennis, and track.

The school committee gives every encouragement and assistance to the various forms of athletics, providing the teams with uniforms and other equipment.

THE GYMNASIUM

During the spring of 1925, a gymnasium was erected on the southwest corner of the campus at a cost of about \$12,000. The building is of brick veneer and has ample floor space for basketball and the physical training work of the school. The building is provided with dressing rooms, shower baths, spectators' seats, and a shop 25 by 50 feet in the basement for the department of agriculture. The building has been named in honor of Cary's most distinguished and beloved citizen, Dr. J. M. Templeton, and is officially known as the Dr. J. M. Templeton Building for Physical Education.

DRAMATIC CLUB

EXAMINATIONS AND REPORTS

At the end of each quarter, written examinations are given on all work gone over during the quarter and reports of scholarship, deportment, etc., are mailed to parents or guardians. The pass mark is 75.

MISCELLANEOUS

Parents should see to it that their children are present on the opening day. Late entrance is the cause of much discouragement and many failures.

Boarding pupils are not allowed to leave Cary without the permission of the Principal in charge.

Parents who find their children spending more money at Cary than is necessary should notify the Superintendent.

No form of hazing is allowed.

No unnecessary communication between the boarding girls and the boys of the school or town is permitted.

Pupils in the dormitories are held responsible for all damage to school property in their rooms. A deposit of \$5 is required to cover damage to rooms in the dormitories. This amount is returned to the occupant at the close of the session if the room is left in satisfactory condition.

Do not request that books be charged, but furnish pupils with about \$8 to cover cost of books.

Boarding pupils are expected to attend Sunday school at church.

Smoking in any of the school buildings or grounds is prohibited.

The school owns
films furnished
having an ed

The do
and attra
and cont
with felt

TEAM CAPTAINS

The brick dormitory for boys has practically the same conveniences as the girls' dormitory. Both dormitories are provided with steam heat, electric lights, running water (hot and cold), baths, etc. The boys' dormitory has shower baths.

C. H. S. ECHOES

The Senior Class publishes monthly during the school year a school paper of interest to the former pupils, and to the patrons and friends of the school. The subscription price is 50c a year or 10c a copy. The title of the paper is *C. H. S. Echoes*. The class also publishes an annual, in book form, which is highly prized by the members.

A few copies of the 1927 Annual are still on hand and can be had at the regular subscription price of \$2.25.

HISTORY

The Cary High School had its origin back in the last century and was owned and controlled by a stock company. In 1907, the owners of the property sold their stock to the county, and the school was converted into a State high school, the first to be established under the high school law of 1907. The official name was changed from the Cary High School to the Cary Public High School. In 1913 by special act of the legislature, providing for farm-life instruction in Wake County, there were added to the school the departments of agriculture and domestic science, the name of the school being changed from the Cary Public High School to the Cary Public High School and the E. L. Middleton Farm-Life School.

The old Cary High School ranked as one of the leading high schools of the State in its day. With a large two-story wooden building, with good boarding facilities in dormitories and in the homes of the citizens of Cary, the school drew patronage from a large section of the State.

Among the first teachers of the school were A. H. Merritt, Rev. Solomon Pool, W. L. Crocker, Rev. Jesse Page, and the Misses Jones. For twelve years from 1896 to 1908, the school was under the management of E. L. Middleton. In

FOOTBALL

1908, Mr. Middleton resigned to enter a different field of work, and the present Superintendent was elected as his successor.

The school has maintained its prestige as a boarding school for with new buildings, new and up-to-date equipment, with dormitories both for boys and girls, with new departments constantly being added, and with a corps of specially trained and experienced teachers, the school still draws patronage from a large territory.

The old two-story wooden building which the school had outgrown was replaced in 1913-14 by a new and thoroughly modern brick structure with thirty-three rooms, costing \$33,000. The old dormitory building for boys which was burned in the spring of 1916, was replaced that year by a brick structure at a cost of about \$13,000. The building contains 34 rooms, being provided with steam heat, electric lights, baths, lavatories, etc., and is now occupied by the girls under the care of the Lady Principal. The old privately owned girls' dormitory, which had been occupied by the boys since 1916, was burned in the fall of 1918. In 1919-20 there was erected on the campus a brick dormitory for the boys, practically a duplicate of the girls' dormitory, at a cost of about \$28,000. This building contains 33 rooms and is provided with steam heat, electric lights, single beds, shower baths, etc.

In the summer of 1923, another two-story brick building was erected to provide rooms for the departments of agriculture, home economics, teacher-training and science. It contains 18 rooms and cost \$45,000. This building has been named in honor of Cary's most illustrious citizen, the late Walter Hines Page, and is known officially as the Walter Hines Page Building for Vocational Training.

In the spring of 1925 a gymnasium was erected on the campus at a cost of about \$12,000. For description of this building, see page 31.

In March, 1927, the school took another forward step by voting consolidation with several districts lying along the Seaboard Air Line and Southern Railway and extending from Raleigh to the Durham County line. Another brick building, the sixth since 1913, is now under construction and will be

GIRLS' BASKETBALL

ready for use in the fall of this year. This building will contain twelve rooms and will be used exclusively by the elementary school. The building will cost something over \$31,000.

The school campus contains four acres and, according to the last geological survey, is the highest ground in Wake County.

The entire school plant at the present time is estimated to be worth \$275,000.

The town of Cary in 1926 installed a water and sewerage system at a cost of \$150,000, thus materially enhancing the desirability of the town as a place of residence. Electric lights, electric power and telephones have been in use for several years. Recently the Baptist and Methodist denominations of the town have provided themselves with new brick church houses with every modern convenience and fully in keeping with the school buildings described in this catalogue.

NOTE. Cary High School is accredited by the State Department of Education, and the elementary department has been standardized in accordance with the requirements of the State Department of Elementary Supervision.
